About Conference - Technophilia

After the consecutive successful completion of yearly technical event named "Technophilia" by the Department of Computer Science & Engineering, we are now proposing to conduct a two day National Conference "Technophilia – 2016" on September 1st & 2nd, 2016 (Thursday & Friday). The Topic of Conference this year is "Emerging Technologies in Computing".

The importance of studying emerging technologies, simply look back at the past decade and contemplate the disruptive technologies that have revolutionized the way IT infrastructure works today. Topics such as server virtualization, big data, and cloud computing were once merely high-level concepts and ideas.
