

Personality Development Session for Student of ECE-3rd year)

A Personality Development Session was organised by Akshay Bhagchandani (Student of ECE-3rd year) under the valuable guidance of MBA department teachers and by support Prof(Dr.) RAJIV SHARMA ,HEAD, ECE Department. Kudos to Ms.Shilpa (faculty member of MBA Department) for always standing out as a fine mentor and a great motivator throughout the session, along with mentor Akshay.

The session was meant exclusively for ECE 3rd year students and broadly covered the tips that a student requires to get through GD's , PI's and making effective resumes.

The session also focused on importance of getting an internship and making projects which are knowledge based, mentors of the session also covered various aspects of body language, how to improve one's skill set and the need to be proficient in English language.

What role does non-verbal communication play in an interview or group discussion ? and how to get yourself out from a wrong plot? , analysing one's strengths and weaknesses were few of the topics on which extensive discussion took place in the session.

The session came to end with a round of group discussion among 8 students who voluntarily came up and participated, thereby making it as a learning experience for one and all.
