

## **FOSS SESSION –INTRODUCING GIT AND OPEN SOURCE**

**January 28,2017**:- Ignited Minds Moz NIEC in collaboration with IEEE NIEC organised a Seminar

**Aim**: To encourage students for contribution in free and open source.

The Session was given by Mr. Sanyam Khurana (CURIOUS LEARNER) who is contributor in Mozilla and in many open source communities. The session started with the introduction of some common open source communities. He told the gathering about how these communities help in various fields, job opportunities, troubleshooting etc. Session was followed by introduction of GIT - version control systems and then he gave the hands-on experience on git and Git hub. Participants learnt how to start with git, git commands, advantages of LINUX over Windows and some basic Linux commands .The session was quite motivating. Participants enjoyed a lot and learnt many new things about open source communities. The session continued over hot topic VR and A-Frame. He told everyone that leveraging open source communities will lead their life on the peak of success. After this, students were introduced with java script and web apps. In the end, a doubt clearing session was there in which he told his experience in open source community and cleared all the doubts.
